

## 'NAZI' TERROR SCARE A ZIONIST HOAX

DURING THE PAST YEAR THE INTERNATIONAL ZIONIST MOVEMENT HAS BEEN ENGAGED IN A DESPERATE AND INCREASINGLY RUTHLESS CAMPAIGN TO STOP THE GOVERNMENTS OF OIL-THIRSTY EUROPE DEVELOPING TRADE LINKS WITH ARAB NATIONS AND DIPLOMATIC CONTACTS WITH THE PALESTINIAN LIBERATION ORGANISATION — THE GOVERNMENT-IN-EXILE OF THE PEOPLE WHO WERE ROBBED OF THEIR HOMELAND BY THE ZIONISTS WHEN ISRAEL WAS CREATED IN 1948.

There are many pointers to indicate that this Zionist campaign culminated during September and October with a series of machine-gun and bomb attacks on Jewish property in Paris — attacks that were immediately blamed by Zionist leaders on French "neo-Nazi" political groups.

These Zionist allegations were immediately taken up by the mass media — not just in France, but throughout the "Free West" — and little wonder as a large portion of the media in most countries is owned and/or managed by Zionist Jews.

If the newspapers articles (so similar in content, no matter what the paper, no matter what the country) were to be believed, there exists a Europe-wide secret army of "neo-Nazis" which is poised to bomb and machine gun its way to form a Fourth Reich.

### NO EVIDENCE

But the plain fact is that not a single scrap of EVIDENCE has been produced by anybody to indicate that the attacks on Jewish property in Paris were carried out by "neo-Nazis".

When a Jewish community building in Paris was machine-gunned late in September, *The Times* saw fit to report that the shots had been aimed high up the building where there was little chance of inflicting casualties.

The bomb placed outside the Paris synagogue in October was timed to go off when all the Jews were inside the building and when only passers-by would be endangered.

In a debate in the French National Assembly following the bomb attack M. Christian Bonnet, Minister of the Interior, declared:

"It is premature to blame French extreme right wing groups. Inquiries continue in all directions — including in one unexpected one."

### "UNEXPECTED"

An inquiry in the direction of a "neo-Nazi" group could not be described as "unexpected" . . . nor could an inquiry in the direction of

further political objectives as effectively as commercial fraud.

French Police are now anxious to trace the owner of a motorcycle which carried the bomb which was left outside the synagogue. This person carried a phoney Cypriot passport in the name of "Alexander Panadryu".

His appearance was said to be "Mediterranean", but was given to wearing a blond wig — presumably to make himself look like a "neo-Nazi".

Such newspapers as have bothered to report M. Bonnet's comments and the Police hunt for "Panadryu" have taken the line that the finger of

to ask the question: who benefits?

Without a shadow of a doubt, the terrorist attacks on Jewish property in France have provided the Zionist cause with an immense propaganda coup. Neither the "neo-Nazis" nor the Palestinians have benefitted from such attacks — and nobody has explained how they might have expected to benefit.

It is for all these reasons that *NF News* believes that the attacks on Jewish property in France have been the work of Israeli secret service agents.

The purpose of the attacks has not been primarily to discredit the French or other European anti-Zionist nationalist movements, nor even to discredit the Palestinian cause.

The prime purpose was to intimidate the governments of Europe — but particularly the Government of France — into dropping their in-

Zionists regard the deal as particularly "provocative" since the Saudis earlier this year called on the Arab world to unite with them in a "Jehad" (Holy War) against Israel as a result of the Israeli government authorising Jewish settlements in conquered Arab West Bank land.

The purpose behind the carefully co-ordinated media propaganda which followed the terrorist attacks in Paris was to induce a state of hysteria and to insinuate into the public mind the notion that any action by the French government that was not wholly pro-Israel constitutes a form of "anti-semitism" which provides encouragement to "neo-Nazis" to perpetrate bomb outrages.

Precisely this claim was made by Henri Hajdenberg, a lawyer who leads the French Zionist group Jewish Renewal. At a demonstration after the synagogue bomb blast he declared:

### PROPAGANDA

"The French Government has a feeling of contempt for the Jewish community. This is evidenced by its Middle East policy and the lax attitude it has adopted towards the neo-Nazi revival in France."

This theme has been amplified in British newspapers. On 15th October *The Guardian's* Paris correspondent Paul Webster reported:

"The Saudi order will add to Israel's concern that France is being repaid for its pro-Palestinian stance . . . France has maintained an impeccable pro-Arab policy, supporting an independent Palestine."

"With the Prime Minister, Mr. Begin, complaining that France's anti-Israel policy is inciting anti-Semitic terrorism, there are signs that it is being accelerated rather than slowed . . ."

Frank Giles, in a *Sunday Times* news analysis feature published on 19th October wrote:

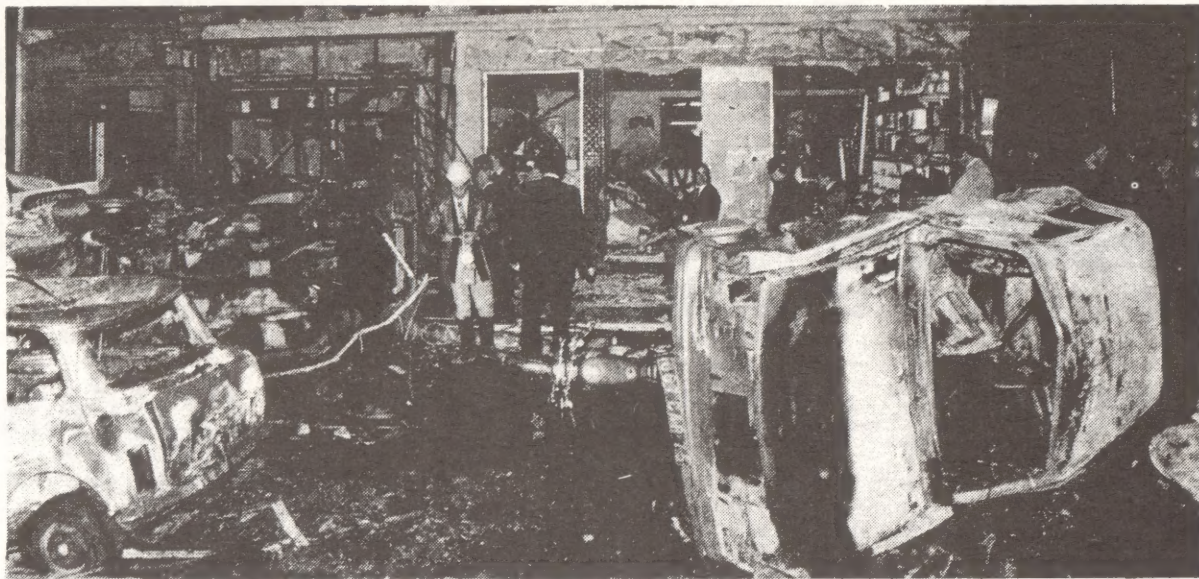

"The pro-Arab policies of Paris, which are understandably a source of irritation in Jerusalem, have certainly played an important part in securing these contracts."

"There is nothing new about this pro-Arab stance. It was initiated by General de Gaulle in 1967 . . . Some circles in France deplore it and the Israelis also claim that France's policies provide active encouragement for anti-Semitism."

The Prime Minister of France, M. Raymond Barre, declared that those responsible for the terrorist attacks "have not only struck France to the heart — they have also wanted to reach its soul."

That was a Gallic exaggeration. All the terrorists wanted to do was reach his government's Middle East policy and turn it Israel's way.

### A 'NEO-NAZI' BOMB OR 'JEWISH LIGHTNING'?

Outside the Paris synagogue after the blast. The French Minister of the Interior reported that it was "premature" to blame "neo-Nazi" groups, saying: "Inquiries continue in all directions — including one unexpected one."

attacks were perpetrated by Zionists themselves.

Setting alight one's own premises in order to make insurance claims is not an unheard-of phenomenon. Indeed, for some reason, this trick is known in insurance circles as "Jewish lightning". It may strike to

suspicion points to Arab terrorists. But this is an unreasonable speculation for three reasons:

Firstly, Arab terrorist groups always claim "credit" for their deeds and in such a way as to authenticate their claim. They compete with each other for publicity.

Secondly, the more extreme Arab terrorist groups are very Left Wing in character and have no motive to provide the world's Zionist media with the opportunity to smear them by association with "neo-Nazi" groups.

Thirdly, the only people who could possibly gain sympathy from an attack on a synagogue (as distinct from a Zionist political or military establishment) are members of the Zionist-led Jewish community.

### WHO BENEFITS?

Very little terrorism is "mindless". Those who perpetrate terrorism have a clear political objective. Where the source of a terrorist attack is not immediately clear, then one has

creasingly pro-Arab, pro-PLO stance which they have been forced to adopt ever since the Arabs began to use the price of oil as a means of inducing Western nations to pressure Israel to come to a just settlement with the Palestinians.

An earlier stage of this Zionist intimidation campaign was the production of the *Death of a Princess* TV film by Zionist Lord Lew Grade's ATV company. That film strained British-Saudi Arabian diplomatic relations and lost British firms billions of pounds worth of business.

### ARMS DEAL

The French, it seems, came in for rougher treatment because France has just secured an order to supply £1,500 million worth of arms to Saudi Arabia. This order follows a previous French arms sale to the Saudis valued at £1,200 million.

This latest deal will provide Saudi Arabia with an ultra-modern navy, equipped with anti-ship missiles.

### FRENCH SECURITY 'BLAMES JEWS'

PRINCE Michel Poniatowski, former French Interior Minister, believes "Jewish or Israeli extremists" were responsible for the recent terrorist outrages in Paris.

He has also indicated that the SDECE — the French counter-intelligence service — supports his assessment. Prince Poniatowski is widely known as President Giscard d'Estaing's private adviser on security and intelligence matters.

This information leaked to *Le Canard Enchaîné*, a magazine with a

long record of publishing accurate 'inside' information about the French 'Establishment'.

Meanwhile, M Alfred Fabre-Luce, a relative of President Giscard, has published an article explaining how the Israeli Government benefits from the creation of an atmosphere of terrorism around French Jewry.

Since these developments the media has gone quiet about the terrorist attacks, which previously they were quick to blame on "neo-Nazis".

### BLAISE WYNDHAM, OUR PARTY'S PRESIDENT

WHEN the youngsters who are joining the National Front in ever greater numbers were made the target of unfair criticism earlier this year, *NF News* championed them as a valuable asset for the party. But we are sure that our youngsters will agree that youth is not the repository of all the virtues that our party needs. The qualities of wisdom, judgement and steadfastness are needed, and they are very often the product of age and experience.

This is why all NF members, young and old, rejoice at the choice of Blaise Wyndham as President of the National Front. He is 87 years of age. His appointment was not a reward for his longevity, but a recognition of his special qualities of wisdom, judgement and steadfastness.

The post of President of the NF carries no executive or policy-making powers. Blaise Wyndham does not need to be granted such powers. When the NF Directorate held a special conference earlier this year to discuss the party's lines of ideological development, he made an outstanding and incisive contribution to the debate.

But he is a man of deeds, as well as of thought and words. He has attended nearly every NF march, demonstration and meeting since the party was formed. He is where our youngsters are — at the front — where the action is, fearless. The man is an inspiration.

That is why we feel fortunate and proud to have Blaise Wyndham as our President.

BLAISE WYNDHAM, President of the National Front. His appointment to the Presidency of the party was announced by NF Chairman Andrew Brons at the Annual Conference of the party in October.

*NF News* seeks to persuade its readers to feel angry about the evils of multi-racialism and to direct their anger solely at the corrupt politicians who created a racial problem in Britain, and not to the Immigrant people in general. "Racialism" is NOT unlawful — only "racial hatred".

## JOBS: THE SITUATION LOOKS BLACKER

THREE MILLION! That is the number of people expected to be out of work by the end of next year according to leading economist Wynne Godley, Director of the Department of Applied Economics at Cambridge University.

He believes that unemployment will rise at an average rate of 100,000 a month right through next year to reach the staggering figure of three million by the end of it.

He lays the blame for this appalling tragedy firmly at the feet of Margaret Thatcher and her Conservative Government.

In a recent article he stated: "I think that the present policies will cause the recession to get very much worse over the next year or so with a further large drop in demand, output, employment and profits."

It is just this type of situation that David Lane, Chairman of the Commission for Racial Equality, warned earlier this year would cause the current wave of racial tension to erupt into race riots.

Lane also made it quite clear that, in his opinion, it was not unemployment amongst Whites, but unemployment amongst Blacks, that would lead to this upsurge in racial

violence.

The politicians are obviously heeding this warning, because both the Government and Local Authorities are setting up schemes specifically aimed at helping Blacks, while ignoring the plight of White youngsters.

Yet according to the Government's own paper *Employment Gazette* only about 3% of the two million people out of work are Black, although Blacks make up over 6% of our population. In other words, the rate of unemployment among Whites is twice as high as the rate among Blacks.

### "POSITIVE DISCRIMINATION"

Nevertheless, because of the

THEN THE JOKE'S ON YOU!

Peter Walker, Minister for Agricultural Decay, Jim Prior, Minister for High Unemployment and John Nott, Minister for the Collapse of Trade, having a good laugh.

threat of racial violence, the politicians are determined to pursue "positive discrimination" policies to help Black job-seekers.

Indeed a Government Minister has said:

"There is still considerable progress to be made in pushing racial equality policies within the public sector but that a new Government plan is being put into force to try to improve the situation."

The Marxist-controlled London Borough of Lambeth is way ahead of this plan. Last year, for example, it hired twelve "General Service Trainees". Of these twelve only two are White, the remaining ten were Black.

Another London Borough keenly embracing this "Blacks First" policy is Camden. They have recently produced a leaflet called *Problems at Work*, which describes how to obtain work permits, claim sick pay and appeal against unfair dismissal — all good useful stuff.

However, page one is only of use if you can read Urdu. Page two tells Spaniards about their rights in Spanish. Page three tells the Chinese about their rights in Chinese, and page four tells the Greeks about their rights in Greek.

Only when you get to the back page do you find just half a page in English — and this is probably for the benefit of West Indians!

The leaflet also gives two addresses from which to obtain help. One is the Fitzrovia Neighbourhood Centre and the other one is Camden Council for Community Relations, an organisation which is more interested in brainwashing White people with race-mix propaganda than helping them find work.

The National Front has consistently predicted that under adverse economic conditions the tension

that is always present between our indigenous population and the large alien wedge would come to the surface and erupt in a violent racial conflagration.

### DESTRUCTION

The disastrous policies of successive Labour and Tory governments have resulted in the rapid destruction of British Industry and under their policies there is no reason to believe that this will change.

According to Wynne Godley: "There is not the slightest reason to suppose that any slow down in inflation will generate a recovery in employment even in the medium term" — by which he means the next five to ten years.

We are now facing the inevita-

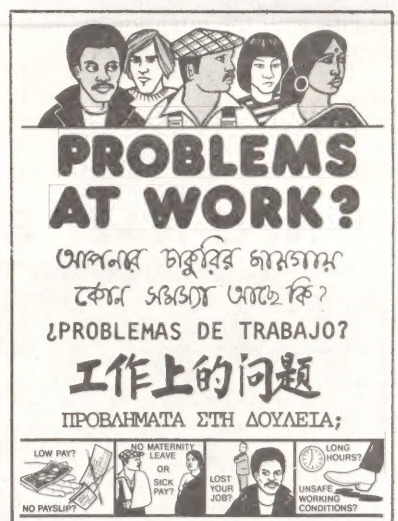

bility of further industrial decline, of more factories closing and of even higher unemployment. The consequences of such a situation are clear.

David Lane has warned of them and many Government Agencies are preparing for them. The Police are already laying in stocks of riot shields, guns and other riot-control equipment.

No amount of pro-Black "positive discrimination" is going to avert the inevitability of a race war in a multi-racial Britain.

The only solution is for a bold and courageous Government to institute the necessary policies of Immigrant repatriation and economic and social nationalism. The only party with these policies and the will to implement them is the National Front.

## THE CHOICE: TWEEDLE-CON OR TWEEDLE-COMMIE

"THE PEOPLE of Britain today will remember this party for the present unemployment figures for the next 15 or 20 years." This was what a delegate from Chester-Le-Street, trade unionist David Milburn, told the recent Conservative Party Conference.

Standing in his blue overalls he voiced the feelings of many British people, yet the other delegates to the conference heckled and booed him as he continued to describe the two million unemployed as the "unacceptable face of capitalism".

The Tories could not tolerate listening to these truths. In a time of economic disaster they refused to hear this plea from the heart, nor would they accept that it was the Conservative Government's policies that had created such a situation.

In contrast to David Milburn's open declaration, the architects of Britain's decline continued to hold to their discredited and failed policies.

Sir Keith Joseph even claimed that his policies had already worked but "the benefits are being masked by the recession, by interest rates, inflation, the pound and excessive Government spending." Just who does he think created these extra factors?

In their entire debate on the economy there was no mention from the Government of import controls to prevent the dumping of manufactured goods from abroad

which has been responsible for the closure of so many British factories.

The whole bankruptcy of Conservative policy was further demonstrated by the failure even to have a debate on Britain's disastrous membership of the Common Market.

The only mention of the EEC came at two private receptions where two fanatically pro-EEC Conservatives, Edward Heath and Lord Soames, were speakers.

Edward Heath declared: "Seldom in the history of the Community has the potential for progress in European Unity been so great." One can only presume that he hasn't seen any British opinion polls recently.

### TORY RUBBISH

Lord Soames remarked that it was in our "national political interest" to remain in Europe and that "every contribution Britain makes to strengthening the EEC would ultimately enhance the nation's own prosperity." Does he really expect the British people to swallow this rubbish?

The only motion allowed on

Immigration was one calling for an "improvement in race relations." There had been twenty motions submitted on this topic. Eleven expressed "concern" at Immigration and a further four called for the abolition of the Commission for Racial Equality.

Could it be that the failure to honour any of the General Election promises over Immigration and Home Office Minister, Timothy Raison's recent decision to allow in yet more "dependants" of Immigrants were the reasons why the anti-Immigration resolutions were suppressed by the Tory leadership?

The spinelessness of the whole Conservative conference was summed up by the way in which Mrs. Thatcher decided to slip into the conference through a back door rather than through the main door because of a rabble of communist demonstrators outside, who were kept well away from the doors by a large force of Police.

A week earlier the Labour Party Conference had degenerated into a shambles where even motions contradicting each other were being passed. The vast majority of the time was taken up in issues concerning the control of the party.

The two main changes are that Labour's MPs will now have to come up for re-selection and that

the party leader is now going to be chosen by an electoral college of unknown composition.

Both these changes will enable the extreme Left to increase its control over the party and we can now expect further moves to oust so-called "moderate" MPs and replace them with crypto-communists.

### LABOUR RUBBISH

Of their solutions to Britain's crisis, precious little was heard, other than shouted declarations that unemployment must come down and that Margaret Thatcher should be thrown out of office.

They were, however, totally unaware of how they were going to achieve these aims except, of course, by implementing "full blooded socialism" — but there was no agreement as to what that might be.

In the Common Market debate, although they voted that the party should include withdrawal in the next election manifesto, several anti-Marketeters, especially those with hopes of office in any future Labour Government, were at pains to point out how difficult this would be.

Peter Shore, a leading anti-Marketeter said: "Withdrawal would not be easy after so many years of involvement."

With this type of iron determin-

ation the likelihood of any such pledge to withdraw being carried out by a future Labour Government is remote in the extreme.

It was quite clear that neither Labour nor Conservative Party Conference could offer any viable solutions to Britain's crisis, nor should this be surprising. Within their equal commitment to internationalism there is no answer.

Only by rejecting the whole basis of their joint internationalist ideology can the solutions be found, and this would require the overturning of the economic structure to which they are both equally subservient.

# PAKIS GO PAKI BASHING AS A BLOODY MOSQUE WAR ERUPTS IN YORKSHIRE

Blood on an English street. Hundreds of brawling Pakistanis terrorised local White residents.

WHENEVER White residents in one of our British towns or cities get up a petition to try and prevent the opening — or to try and close down — an Asian temple or mosque, you can always be sure that they will be branded as "racists".

Precisely that happened in August when White residents of West Bromwich, West Midlands, petitioned Sandwell Council to refuse planning permission for a former factory to be converted into a Sikh temple.

Labour Councillor Rob Steven-ton, hungry for Asian votes, said the residents had launched a "racist campaign". He scorned their objections and the planning application was granted.

In September West Bromwich residents were again in uproar about the nuisance being caused by a new Hindu temple in the High Street. They complained that Asians using the temple had been:

- ★ Urinating in the street because there are no WCs in the building.
- ★ Using the building as a doss-house.
- ★ Blocking nearby streets with their cars.
- ★ Turning up in their hundreds despite the fact that the building is only supposed to cater for 200.
- ★ Using a loudspeaker system at all hours that can be heard 300 yards away.

All these nuisances were predicted by residents when they petitioned to oppose planning permission for the temple last March. But their

objections were deemed to be "unfounded" and permission was granted.

The problems facing White folk in West Bromwich are as nothing compared to the terror to which White residents in the Masborough district of Rotherham, Yorkshire, were subjected in August when rival Pakistani Muslim factions battled for possession of a Mosque in (of all places!) Chapel Walk.

The Sheffield Star reported that the series of bloody street battles stemmed "from a difference in peoples' vision of Mohammed. Traditional thinkers see him as a man and a prophet. But another faction sees him as a spirit with whom they are still in touch."

"The traditional faction worship at the mosque — and the other group, growing in strength, has set up its own base in a rundown building in nearby James Street. But both see the mosque as their own."

As a result, the Police, including Yorkshire's version of the SPG, have been called out three times to quell savage battles between hundreds of rival Muslim fanatics.

After one battle, 2 Policemen and 12 Asians were hospitalised.

Nine Asians were arrested. In the fighting Asians used bricks, bottles, clubs and hockey sticks.

Local scrap dealer Mr. Wilf Collins reported:

"I had to dodge a hail of bricks. One fellow was running about with a hockey stick. They were just running up to one another and hitting out with house bricks."

Another local trader, Mr. Percy Wood, said:

## "BODIES FALLING"

"The Pakistanis suddenly swamped the place. Fighting started and there were bodies falling. One man was covered with blood."

White residents of Newport, South Wales, are not to be spared the excitement of having a mosque in their town.

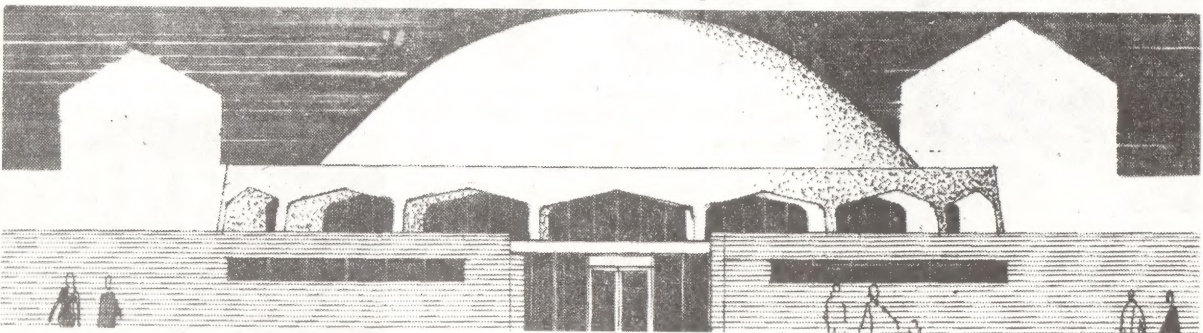

The South Wales Argus reported in August:

"Council planning officers have been working with the Muslim community on plans, and have an empty site in mind."

"They have asked the Argus not to disclose this site as the residents have not yet been informed."

So much for "the public's Right to Know!"

Once again we see corrupt public officials and the corrupt Press conspiring against the British people in order to assist alien invaders!

An artist's impression of the Mosque that is soon to disfigure the skyline of the lovely South Wales border town of Newport. Already there have been disputes between Muslim factions in the town.

## YOUNG PATRIOTS ATTACK PRO-I.R.A. SCUM

YOUNG National Front supporters cleared the streets of Birmingham of a crowd of pro-IRA communist scum in an outburst of fury on

Monday 27th October.

The IRA supporters had gathered in Colmore Row in the centre of the city with the intention of hold-

ing a torchlight procession to show solidarity with IRA murderers held in Long Kesh internment camp.

This demonstration was backed by eight Birmingham Labour Councillors despite the fact that in 1974 IRA gangsters exploded bombs in pubs used by young people in their city, killing 21 teenagers, and horribly maiming countless others.

This demonstration provoked Birmingham's growing band of young NF supporters beyond all endurance. They didn't mess about. They attacked the IRA rabble as they formed up.

The Birmingham Post reported: "A peaceful demonstration (on behalf of murderers! Ed.) turned into a violent battle in Birmingham city centre last night. National Front supporters stoned then charged

campaigners.

"The NF supporters assembled on the opposite side of the road and after anti-IRA chanting started to hurl bricks, stones and cans over passing traffic."

"Then they charged into the demonstrators. Police arrived after several minutes to break up the battle."

"Miss Mary Pearson, Chairwoman of the action group said the confrontation had been horrific."

Two young people, believed to be NF supporters, were arrested. We appeal to NF News readers to send in cash now for their legal defence fund.

At the NF Annual Conference on 26th October the party committed itself to supporting militant action against all pro-IRA demonstrations.

BRIGHTON Reds held a rally at the Brighton Resource Centre on 24th September to re-activate the Anti-Nazi League (slogan: "Smash the National Front!").

Brighton NF Branch announced a counter-demonstration so the Reds' guest speaker, Tariq Ali, failed to show up.

70 young NF supporters gathered outside the building inviting the Reds to come out and "smash" them. The Reds did not accept.

Instead they begged for Police protection — whereat the Police commandeered a passing bus, piled the Reds on it, and escorted them out of town.

## BRIGHTON REDS BEG POLICE PROTECTION

## N.F. WINS 10% IN HOXTON

FIVE HUNDRED National Front members, at only a week's notice, marched through Hoxton on Sunday 5th October in support of the NF by-election candidate for Wenlock Ward of Hackney Borough Council, Derrick Day.

The theme of the march — and of Mr. Day's campaign — was a protest at the way in which Hackney's

Zionist Labour Councillors had deliberately neglected the Hoxton area and had championed the cause of Black muggers against the Police.

At the rally at the end of the march Mr. Day made a blunt speech which won enthusiastic applause and a Race Relations Act warning from the Police.

Mr. Day applied to the Inner London Education Authority under Election Law to book a hall for the purpose of holding an election meeting in a school hall within the ward.

The application was refused because the ILEA held that Mr. Day's intention of keeping violent Reds out of the meeting was unlawful! So he held an open-air meeting outside the school he had applied for on Tuesday 7th October.

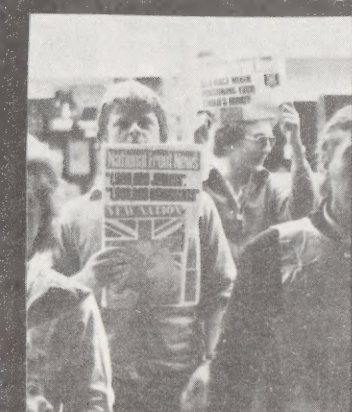

The Liberals won the 'safe' Labour seat with double Labour's vote. Mr. Day came third with 200 votes — 10 per cent — and the Tories trailed with 56 votes.

# 'WE MUST BE A HAMMER IN THE CAUSE OF BRITISH SURVIVAL'—ANDREW BRONS

A MOOD OF MILITANCY marked the Annual Conference of the National Front which was held on Sunday 26th October at the Tower Suite of the Tower Hotel, London E.1.

The hall was booked by the NF's subsidiary, the Inner City Re-development Project in order to frustrate the Zionist and Left Wing campaign to prevent the party from hiring halls.

More than 400 delegates packed the meeting until there was standing room only. Delegates came from as far afield as Fife, Scotland, Newport,

NF Chairman Andrew Brons

South Wales and Plymouth, Devon.

At the end of the day a 'Dutch Auction' appeal for funds by NF National Activities Organiser Martin Webster raised £2,113 (a higher amount than that hurriedly computed and announced at the meeting).

Not only were there more delegates at this year's Conference compared to last year's, the appeal for funds raised £900 more than last year's appeal.

These facts, together with the atmosphere of unity and enthusiasm in the hall, give the lie to media claims that the NF "is dead".

## COUNTER ATTACK!

NF National Directorate Chairman Andrew Brons captured the spirit of militancy in his concluding address when he said:

"There are two types of people in the world: anvils and hammers. The National Front was not brought into being to serve as an anvil. We exist to act as a hammer in the cause of British national and racial survival.

"Our party has overcome a series of diabolical attempts to destroy it. We shall now move to counter-attack!"

Three important trends emerged

from the debates on 20 resolutions before the Conference:

### 1) MILITANT ACTION

The Conference committed the party to pursuing a policy of militant counter-action against all further Left Wing attempts to deny by means of violence or intimidation the NF's rights of assembly and free speech.

It also committed the party to pursuing a policy of defiance and non co-operation in all cases where the Authorities use Left Wing violence or threats of violence against the NF as a pretext to ban or inhibit the NF's ability to function on equal terms with other political parties.

### 2) RADICAL ECONOMIC NATIONALISM

The Conference committed the party to pursue a much more radical line of opposition to 'Right Wing' economic policies and to all forms

NF Deputy-Chairman Richard Verrall

of Capitalism — national and international — which endanger the survival of the British race and nation.

### 3) REJECTION OF DICTATORSHIP

The party totally rejected a campaign to introduce a dictatorial form of leadership by carrying unanimously an amendment to the NF Constitution which consolidated the position of the National Directorate as the party's governing body. The resolution established the

More than 400 delegates attended the NF Annual Conference. By the afternoon there was standing room only. Branches from Fife to Plymouth were represented. The meeting was ably chaired by Ian Anderson.

Directorate as an 18 place body and determined that six of these places, in rotation, will fall vacant each year to be refilled by means of a postal ballot of the whole membership.

This third trend is of importance to those who have been following the NF's "internal politics" during the past year.

At last year's Conference the then Party Chairman Mr. John Tyndall failed to persuade the membership to vote him virtual dictatorial powers.

In January of this year he told the Directorate that unless another Conference was convened immediately to enable him to re-submit his proposals, he would resign as Chairman. The Directorate rejected this ultimatum.

### "MAN OF DESTINY"

Thereafter, Mr. Tyndall organised a membership petition calling for an EGM. By June this had attracted only 250 signators, so Mr. Tyndall resigned from the party in order to form a splinter-group based in Hove, of which he is The Leader.

The unanimous adoption at this year's Conference of the Directorate election resolution indicates that Mr. Tyndall's resignation from the party was entirely appropriate.

Many delegates declared that this year's Conference was "the most encouraging for some years" and recalled with some amusement the predictions made by Mr. Tyndall in January:

"Without my Leadership, the NF will not live to see its AGM in October!"

A highlight of the Conference was the announcement by Mr. Brons that under the terms of the new

rules agreed at the Conference, the National Directorate had decided to appoint Mr. Blaise Wyndham as President of the National Front.

Mr. Wyndham, 87, apart from being one of the party's most active members ever since it was formed in 1967, is one of the longest-serving members of the Directorate. He is also a member of the Directorate's Executive Council and is Chairman of Brent Branch.

Martin Webster, NF National Activities Organiser, raised a collection of £2,133.

## NATIONAL DIRECTORATE ELECTION RESULTS

THE counting of votes in the annual elections to the National Front Directorate — the party's governing body — took place on Saturday 27th September.

This year there were ten vacancies on the Directorate. 706 members availed themselves of the right to participate in the postal ballot. The results of the election, in descending order of votes cast, were as follows:

**ELECTED:** Ian Anderson\*\* (Newham Branch), 567 votes; Martin Webster\* (Wandsworth Branch), 557; Joseph Pearce\*\* (Barking Branch), 534; Derrick Day\*\*\* (Hackney Branch), 519; Mrs. Peggy Caine\*\* (Havering Branch), 497; Nicholas Griffin\*\*\* (Ipswich Branch), 494; David Riley\*\* (Accrington Branch), 487; Miss Carole Neil\*\* (Nottingham Branch), 453; Paul Matthews\*\* (Leicester Branch), 428; and John Fishwick\*\*\* (Wallasey Branch), 426.

**NOT ELECTED:** Derek Holland (Peterborough Group), 290; Ronald Hadlow (Portsmouth Branch), 273; and Brent Cheetham (East Herts Branch), 267.

The successful candidates in the election attended the first meeting of the 1980/81 Directorate on Saturday 18th October, joining current members:

Andrew Brons (Harrogate Branch); Philip Gegan (Leicester Branch); Mrs. Beryl Mitchell (Head Office); Michael Salt (Wandsworth Branch); Mrs. Helena Steven (West Woolwich Group); Richard Verrall (Head Office); Peter Williams (Norwich Branch); and Blaise Wyndham (Brent Branch).

### EXECUTIVE COUNCIL

At the meeting it was announced that as no Directorate members had been nominated to contest for the posts of Chairman or Deputy-Chairman of the Directorate, last year's Chairman Andrew Brons, and last year's Deputy-Chairman Richard Verrall, were re-elected *nem con*.

As a result, Mr. Brons and Mr. Verrall were automatically re-elected Chairman and Deputy-Chairman of the Executive Council of the Directorate. In an election for the remaining four places on the Executive Council the following Direc-

torate members were elected unopposed:
